

# *Did you know?*

One year out of college, women working full time earn only 80 percent as much as their male colleagues for equal work. Ten years after graduation, women fall farther behind, earning only 69 percent as much as men for equal work. That's a ***\$700,000-\$2 million loss of income*** over a woman's working lifetime for her AND her family!

*Learn how this happens and how to stop it in your own life with compensation benchmarking and fair-pay negotiation skills at the **\$tart \$mart Salary Negotiation Workshop!***
